re: Great National Corp.  
Crusher Site

Dear Jim,

Great National Corp. is in the process of developing some tar sands in the area using Kendrick Bros. as contractors. They received authorization to proceed from DOGM by letter of 7-16-81 and leased one acre of ground from Kaiser Steel Corp. for a temporary crusher site as shown on the attached drawing. Kendrick Bros agrees to comply with all OSM/DOGM rules and regulations.

Detailed plans are being drawn up showing the crusher facilities, traffic patterns, & surface drainage sediment control structures. This information will be forwarded to your office as soon as it is available. Topsoil will be stockpiled on the south side of the crusher site and protected.

Kaiser Steel Corp. does have ultimate responsibility to assure reclamation compliance, and agrees to assure that all requirements will be complied with.

Sincerely,

*John S. Huefner* PE.  
John S. Huefner  
Reclamation Engineer
